An ageless storyPar ALERGANT BernardThis book offers an analysis of the emotions and experiences of a sensitive, gifted and intelligent woman who is born with too many male genes, and the result of that on her life, on the way she is perceived and treated by her family and by society, and on the choices which she is

driven to take in order to protect herself and those she loves. If it is read objectively, it can open one's eyes (as it did mine) to how homosexuals feel, to the fact that they are neither depraved nor despicable per se. They seek to give and receive love as their nature dictates. But, inevitably, they most often face the open or concealed approbrium of others. The message is beautifully told. The writing is exquisite.0 internautes sur 1 ont trouvé ce commentaire utile. Le livre est en bon état.Par Vitoux NathalieLa livraison a été plus longue que prévu à cause des fêtes de fin d'année mais le livre correspond a mes attentes bien que l'image de couverture soit différente.
