Tout y est et de la manière suivante: vous avez une problématique ?
Alors lisez le sommaire, trouvez le ou les cas correspondant à votre situation, et puis effectuez les actions listées.
Idéalement: je conseille d'avoir lu (et relu) "Wireshark 101: Essential Skills for Network Analysis (Broché)".
Si Wireshark 101 vous permettra de comprendre l'outil et de l'appréhender de la manière la plus efficiente, ce guide vous permettra d'aller au bout des choses en situation (testé et approuvé ! ;)
